

Horne Cyber

Paid | Starkville

Horne Cyber is seeking a communication intern who could begin working in May but also could work into the fall if possible. This student would mainly be working on (1) developing and scheduling tweets, (2) editing and posting blogs, and (3) editing and creating documents in InDesign. This would be a paid internship.

HORNE has offices all over the southeast and is headquartered in Ridgeland, MS. The intern would mainly be working out of the Starkville office but might also be asked to travel to Ridgeland some because the marketing department is mainly based out of Ridgeland with the exception of Abby Thompson who is here in Starkville.
